REPORT OF THE LIBRARIAN

To the Board of Trustees of the Wolfeboro Town Library:

Gentlemen:

The report of the librarian for the year ending February 1, 1934, is herewith presented.

Our report of a year ago showed a phenomenal increase of work, this as a result of the unemployment situation. With the coming of the NRA and the CWA this gain has not been continuous, but our figures show a circulation second only to that of last year.

28,893 books have been loaned of these classes, fiction, 18,671, non-fiction 5,619, children's books 4,603. The average monthly circulation has been 2,408. Largest number of books given out in a single day 240, smallest number, 19. 307 new borrower's cards have been issued. 398 books have been added to the library, 97 of which were contributed.

In December, through an arrangement by the State Library Commission we were given a CWA worker for three months. The special work undertaken was the making of a complete inventory of the books in the library, together with a shelf list. The extreme cold retarded our progress, and the worker was called off before the task was completed. It is hoped that funds may be spared this year to hire a typist for finishing the work.

The following is a statement of the money taken in at desk during the year, and the way in which it has been expended:

The library has sustained a loss in the death of Judge S. W. Abbott, president of the Board of Brewster Trustees, and by the death of Mr. A. H. Beardsley, who was a trustee of the Town library.

Special thanks are due Mrs. Philip Smith, Mrs. Jenkinson, and all others who have made contributions to the library.

We would express our appreciation of the Trustees for their counsel and support, and of the library assistants who are always willing to help out in times of special work.

Respectfully submitted,

ELIZABETH BREWSTER,

February 1, 1934. Librarian.

It will be seen from the above report, that Wolfeboro Chapter is still trying to serve the community as well as it can. Mere figures, however, do not record the "human interest" side of our service.

The past year has been a hard one. The Town has, indeed, been generous in its appropriations, but our other sources of revenue have been much curtailed. This has made it necessary to practice the strictest economy consistent with maintaining our service.

Too much credit can not be given to our nurse, Mrs. Patten, who has not only worked most of the Sundays and holidays that are rightfully hers, but has refused to take a much needed vacation which is her due, thereby saving the salary of a month's substitute nurse.

While we have had no especial epidemic the past year, the nurse has had many difficult medical and sur-

gical cases, and the economic conditions have made many Social Service calls necessary. Much clothing, both new and used, has been distributed as have many other supplies. In this, she has worked in cooperation with the County workers, to their mutual advantage.

While the general outlook seems brighter, there is still much distress to be relieved, and we are attempting to meet the situation as rapidly as possible. In this work, our nurse has received the loyal cooperation of our Selectmen, and of our citizens generally, for which she and the Chapter Officers are indeed deeply grateful.

With a continuance of this loyal support, our Chapter hopes to serve the community even better this coming year.

Respectfully submitted,

LOTTIE L. RUST,

Treasurer.

HEALTH OFFICER'S REPORT

To the Honorable Board of Selectmen, Town of Wolfeboro, N. H.

Gentlemen:

Your health officer has endeavored to promote the interests of the citizens in health protection in every possible way. A smallpox vaccination campaign resulted in practically all the school children meeting the requirements of the law. Over one hundred preschool children and babies were immunized to diphtheria. There is some question in the minds of people regarding the necessity of the latter measure, in a community as free as ours of serious contagious disease, yet it should be remembered that immunization probably last for life, and the future citizen is protected against the disease itself as well as against becoming a carrier.

There has been no serious epidemic this year. Many cases of pertussis were reported to the health officer so measures were promptly taken to vaccinate the uninfected children. In all, over one hundred children received protective inoculation. The results were just about as one would expect—the child who had not already contracted the disease was prevented from having it.

It is obvious that the garbage collection was a most successful measure. The dumping of household waste into the lake stopped at once. There is no doubt that this sanitary duty of the town should be extended to a larger proportion of our citizens.

The demands of the State Board of Health regarding sewage disposal are still under discussion. Without questing some measures must be taken in the near future to prevent the continued pollution of the lake.

FRED E. CLOW, M. D.,

January 15, 1934. Health Officer.
